Rich,

Thanks for the opportunity to review and comment on the letter. Clearly there are a lot of issues that need to be addressed/corrected. I have made some changes to the letter by adding an introductory paragraph and bringing the last two paragraphs up to the front (improper sampling protocol at two wells and failure to address contingency requirements). I also provided some comments on the points you made. Basically I think more detail needs to be provided in the bullets.

I'd be happy to have a call to discuss. Let me know.

Bob

Hi Bob,

DOH finished this draft for the 4Q gw mon rpt deficiencies. Attached. Also, I can change all DOH to DOH/EPA. And remove the internal comments.
